CommerceTree

eBusiness Grows On Us

your turnkey
E-Commerce
solution

your turnkey E-Commerce solution

"Any business that hopes to grow in today's competitive economy, regardless of size, needs the right E-Commerce strategy to achieve success:"

CommerceTree understands that one of the most critical components is the selection of an appropriate E-Commerce platform. After several years of research and development, CommerceTree is proud to introduce the most comprehensive, robust and cost-effective turnkey E-Commerce solutions available today.

What CommerceTree can do for you:

Provide a web store that is

- Professional. With the look and feel of large corporations. Immediate positive impact on your customers' satisfaction level.
- Virtually real. Simulating the actual store with well-organized categories, product finder, enhanced pictures and product descriptions.
- Comprehensive. Furnishing retail (B2C), wholesale (B2B), or both.

CommerceTree E-Commerce also

- Provides real-time shipping costs and tracks orders.
- Processes payments, depositing them directly into your bank account.
- Synchronizes your company's data with most popular accounting software.
- Sends instant order notification by E-Mail.

So you can

- Manage orders and customers at any time, from any place.
- Maintain your store easily. Perform unlimited store modifications and updates at no cost.
- Import/export data in spread sheet and test delimited format.

Discover the Business advantages:

- Save in labor costs and selling efforts.
- Receive payments automatically, around the clock.
- Expand your customer base by reaching a growing number of Internet visiting prospects.
- Lead the competition by providing your customers with instant price information, special offers, new arrival information, and product availability.
- Strengthen your corporate image through a professional, well-designed online store and catalog.
- Reach more buyers. Use our nationwide or worldwide target campaigns to sell your products online through Google, AOL, ebay, MSN, Yahoo, Lycos, and others.
- Do away with the need to engage Web developers for regular product and website updating.

Why CommerceTree is better:

- User-friendly. Offers the most advanced online shopping experience for your customers.
- Easy-management. Provides secure access to your Administrative Site anytime anywhere.
- Complete security. Transmits all data and payments using certified 128 bit Secure Socket Layer.
- All-in-one platform. Seamlessly integrates in one system all of the functions to carry out sales and payments more efficiently over the Internet.
- CommerceTree Wizard™. Includes an Interactive, PC-resident program designed to make modifying and updating your Web store easy and hassle-free.

CommerceTree ...building powerful E-Business solutions.
